## BACKGROUND

Department of English Teaching, Universitas PGRI Madiun (UNIPMA) has committed to ensure quality of English Teaching and Learning in its surroundings. Our best support is for English teachers, lecturers and practitioners, to take a part in the community's development. Through their expertise in the area of English language, namely English Teaching, Linguistics and Literature, they provide the students a valuable means to realize their future so that they are worth contributing to local and global communities. They are encouraged to adjust to the change of contexts over time for the sake of serving the students. In an attempt to provide learning quality, it is necessary for them to keep up-to-date with recent development in ELT, research and publication. They are challenged to share their experience based on their pedagogical knowledge, to disseminate their informed practices, and to examine contemporary concepts of English language learning and teaching leading to an awareness of building a language learning that can win globalizing world encounters.
